

## 5. Best practices, Innovation and Institution Distinctiveness

5.4.1. The introduction of new PG courses in the subjects of Pol. Science, Hindi and Chemistry is an exciting development in the college. This helped the children of nearby and far-flung areas of district Chamba to get quality education at their doorstep rather than going to Dharmshala and Shimla.

5.4.2. Our college e-newsletter reflects our commitment to excellence by sharing timely updates, achievements, and opportunities. It highlights key events, accomplishments, and important notices. Regular updates help keep students and faculty informed and connected.

5.4.3. The smart classrooms of our college integrate advanced technology to enhance interactive and engaging learning experiences. They support multimedia teaching and better concept visualization. This ensures an effective and modern approach to education.

5.4.4. The digital library is equipped with modern facilities to ensure efficient access to digital books, journals, and databases. With the installation of two user-friendly kiosks, students can easily explore resources and stay academically updated. It promotes a flexible and technology-driven learning environment.

GOVT. COLLEGE CHOWARI**

5.4.5. The Girls' Common Room is thoughtfully designed to provide a comfortable and safe space for relaxation and interaction. It is equipped with facilities such as an oven, TV, refrigerator, dining table, and comfortable seating. This ensures a welcoming environment for students during their free time.
