j. Basodan Eco Club of Govt. College Chowari organizes Expert Talk and Discussion on World Ozone Day

16th September, 2024

On the occasion of Ozone Day, the Basodan Eco Club of Government College Chowari organized an informative lecture for the students on the critical topic of ozone protection and climate action. The event, held in the college, featured a lecture delivered by Mr. Sidharth Sharma, Associate Professor of Physics at Government College Chowari, titled "**Montreal Protocol: Advancing Climate Action**". The session began with a brief introduction by the Eco Club Coordinator, who shed light on major international agreements pivotal to environmental conservation, including the *Montreal Protocol*, the *Kyoto Protocol*, and the *Convention on Biological Diversity (CBD)*. These agreements have played a crucial role in addressing global environmental issues, particularly in reducing ozone depletion and mitigating climate change.

Following the introduction, Mr. Sidharth Sharma took the stage and delivered a comprehensive lecture. He started by explaining the basic concepts of ozone—its importance in shielding the Earth from harmful ultraviolet (UV) radiation—and the detrimental effects caused by **ozone-depleting substances (ODS)** such as chlorofluorocarbons (CFCs). Mr. Sharma highlighted the **adverse impacts of ODS on the environment**, including increased UV radiation leading to skin cancer, cataracts, and negative effects on marine life and ecosystems. A key aspect of the lecture was the discussion on the **Montreal Protocol**, a landmark international agreement aimed at phasing out the production and consumption of ODS. Mr. Sharma emphasized its **dual role** in not only combating ozone depletion but also in contributing to **climate action**, as many ODS are potent greenhouse gases. He explained how the success of the Montreal Protocol has set a precedent for international cooperation in addressing environmental challenges.

The event was attended by a **total of 113 students**, along with faculty members including Mr. Hans Raj, Mr. Balbir Singh, and Dr. Vishal Sharma. After the lecture, an interactive session was held, where students were encouraged to ask questions and share their key takeaways from the talk. The participants expressed their appreciation for the valuable insights gained about the environment, climate action, and global efforts in ozone protection.

The Ozone Day celebration was a resounding success, leaving students with a deeper understanding of environmental issues and inspiring them to contribute to climate action efforts in their own ways.
